Spring Into Action!

BI-WEEKLY MANUFACTURER UPDATES

Every other week, Ginger Grant Group shares manufacturer updates and promotions! Last time we put the spotlight on environments, such as [education](#), [senior living](#), and [healthcare](#). In this issue, we celebrate springing into action with furniture that moves, lifts, rocks and more from Krug, Gressco, and Hekman Contract. For a closer look, click the images below!

Krug

In the spotlight this week is Krug with their Solis guest seating with flex back panel, the comfortable and functional Jordan Glider, and the dual-purpose Amelio Sleep Sofa.

Click the image above for more information!

Gressco

This week, we look at some fun furniture with Gressco and HABA Pro, such as the Adventure Tunnel Swing, the Ergo Seat Rocking Stool, and the Monte Bambini Climbing Wall.

Click the image above for more information!

Hekman Contract

Our highlights this week feature Hekman Contract's mobile adjustable stand, the helpful Jensen power chair, and the comfortable Samantha power lift recliner.

Krug

Manufacturer Product Spotlight

Solis Guest Seating **(http://www.krug.ca/pdf/Solis_Brochure.pdf)**

Solis is a heavy-duty product, designed to stand up to the use and abuse that occurs in intensive-use environments. Backed by a lifetime warranty, it features highly durable materials and construction - and is designed for extended product life, through the replaceability of its components. Metal side frames, as well as

both wood and urethane arms, can be field-replaced if damaged. Complete seats and backs can be field-replaced when worn out or damaged. In the battle for infection control and healthy healing environments, Solis offers an impressive array of features.

Removable upholstery covers are available, which can be removed and cleaned - or replaced, allowing the life of the product to be significantly extended. Mesh backs are removable, for cleaning or for replacement. When combined with anti-microbial upholstery, all surfaces can feature anti-microbial finishes, and the optional Splashguard protects the underside of the seat from pathogens and moisture.

Flex back: The ergonomically-designed back has a slight flexing action, which significantly enhances comfort and can be beneficial and pleasing for patients who are seated for long periods.

Jordan Glider (http://www.krug.ca/pdf/jordan_glider.pdf)

This is quite simply one of the best glider-motion chairs ever brought to market. Available in two sizes, the unique curvature and support points of the Jordan Glider encourages an ergonomically-correct sitting posture that is also exceptionally comfortable.

This chair, along with the other Jordan products, has been designed with pronounced lower lumbar and thoracic support, and the canted seat with a "waterfall" front is designed to prevent discomfort for legs and hips, while promoting good circulation. The seat, arms and the recessed front panel are designed to allow safer and easier ingress and egress. A slight flexing action in the back promotes an upright sitting position that is still pleasingly comfortable.

FEATURES:

- Locking, Replaceable Mechanism
- Removable/Replaceable Upholstery & Components
- Wall Saver Design
- Antimicrobial Finish
- Life Time Warranty
- GREENGUARD™ Certified

Amelio Sleep Sofa (<http://www.krug.ca/pdf/Amelio.pdf>)

Newly expanded and enhanced with a range of new options and features, Amelio is the market leader in sleep sofa solutions - and the most extensive product offering of its kind. In re-designing and expanding Amelio, we have incorporated research that supports the value of family involvement in assisting positive patient outlook and outcomes during recovery. Studies indicate that proximity to family reduces the rate of medical errors, reduces the rate of patient falls, and significantly increases patient satisfaction ratings.

Amelio has been carefully and thoughtfully designed to facilitate family and visitor interaction with patients and caregivers. It creates patient rooms that provide comfortable, efficient space for work, dining, relaxing, and sleeping - each of these simple conversions can be performed with ease, and technology integration means visitors can stay connected. Cleaning staff and Infection Control will appreciate the numerous features that allow Amelio to be easily cleaned, and less prone to accumulation of germs, bacteria, and debris. Amelio Modular's innovative and patentpending design provides reconfigurability to accommodate change - something never done before in a sleep sofa!

Gressco

Manufacturer Product Spotlight

Adventure Tunnel Swing by HABA Pro (<https://user-ynws2gd.cld.bz/Gressco-HABA/HABA-2021-22/317/>)

This adventure tunnel will delight any child looking for a new challenge. Not only will it teach young ones how to climb on their knees, but it will also decorate the room with its vibrant green and blue colors. Make a game of it! See who can crawl through the tunnel the fastest. It encourages and supports play activities to help children develop and grow into a well rounded human being that knows their own limitations. Helps with developing physical strength, focus and concentration, promotes body awareness and trains the vestibular system. For crawling through, swinging back and forth or as a place of retreat. The adventure tunnel can be hung on load-bearing ceilings or on the beams of the timber movement center at any height. For children ages 3 and up. Made of a tear-proof polyester material with reinforced seams.

- Can be hung from the ceiling
- For climbing, swinging or sitting
- Tear-resistant thanks to reinforced seams
- Helps develop physical fitness

Ergo Seat Rocking Stool by HABA Pro (<https://user-ynws2gd.cld.bz/Gressco-HABA/HABA-2021-22/23/>)

Use as a seat or standing aid. This standing or sitting stool allows for 360° freedom of movement, relieves the spine and strengthens back muscles. Thanks to the curved base plate, it adapts to the movements of the body. The seat height is infinitely adjustable. Stool comes with a domed base and ergonomic saddle seat.

Perfect for doctor's offices, classrooms or libraries. The base is made of beech wood with anti-slip coating. Frame is made of a powder-coated silver aluminum. Comes fully assembled.

Ergo Seat Rocking Stools:

- Encourages good posture
- Use for standing or sitting work
- 360° freedom of movement
- Strengthens back muscles
- Seat Heights: 14½"-19¾" & 21¼"-31½"
